**Please identify what you consider to be the strengths of the course (or section).**

Comments
Homework enhanced course material.
Alyssa is a phenomenal instructor. She explained everything clearly and efficiently, and because of her help, I felt prepared for homework assignments and exams. I would not have done well in this course if it hadn't been for her. I really didn't enjoy the class itself at all (lectures, not discussion sections), but Alyssa improved my experience by tenfold.
They made everything so much more Understandable
The structure really helped students understand when they were confused.
The class participation and gsi teaching was extremely effective and helped me to learn the material

**Please identify area(s) where you think the course could be improved.**

Comments
Slightly disorganized and slow-moving.
Better preparation for homework and exams
Learning pace could be more effective, too slow at times
They could have made more practice problems
N/A
The course could have had more example problems to reflect the exams better

**What advice would you give to another student who is considering taking this course?**

Comments
Doing the homework before discussion makes the section more productive.
Dont take it if you dont have to
Attend section and do the homeworks, read over lecture notes before asking questions
Don't do it if you are a freshman
Go to discussion it really helps you understand the material!
homework and reading textbooks are incredibly helpful to preform well in the course
